January 2018

joshiahventure

Hello in 2018.

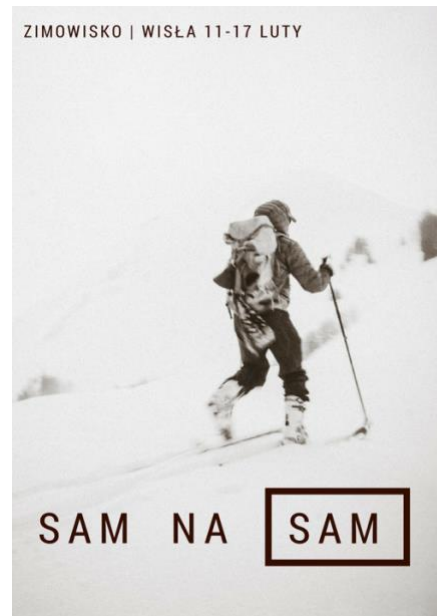

We are just after very active beginning of this year. We said goodbye to 2017 in church with people and it was amazing. We had opportunities to have deeper relationship with each other playing music tournament, reading Bible and listening Pastor Adam who speak about serving God in next year. At the end praise God through worship and pray we gave thanksgiving and also we were praying for our lives and life in our community. We prayed for blessing for us

First weeks of January I am Focus on

planning winter camp for youth people and it is called „FACE TO FACE”. We are going to talk and think how important is personal – FACE TO FACE - relationship with our Father. Our community is very involved in many events and projects. We want that young people are not going to build their relationships with God from the events to the events but to build live and real relationship with God. That's why we called our winter camp „FACE TO FACE” and we are going there February 10 for 7 days.

50 young people are going to have fun with winter sports but also they are going to develop relationship with God.

Also in January we are going to have meeting for about 100 kids where we have contact because of Social Care in Nowy Tomyśl, who shared us addresses over 350 families who need help. We gave presents for kids from this families for Christmas and now we want to have contact. That's why we do meeting with food and some activity.

January 9 we have had a special day in our family, Zuzia the youngest member in our family has a 3th birthday. It was special day because very awaited from Zuzia. She was waiting for this day and she was planning for a half year. She was thinking how this day will look like. We have had a very good time with our family. We are so thankful for this an amazing kid and we are praying for wisdom for education what we ask for you.

I am asking for your prayer, last 2 months I am praying to God and I struggle with thoughts looking for God's will in our life and life in church. This year probably going to be challenging for church because the changes that await us, pick new people for a council of the church and many work for new vision to our church.

Please pray that God give me wisdom and teach me listening Him what he wants me to be faithful in my serving Him.

Piotr, Agnieszka, Oliwia & Jakub Dymkowski
